

Mr. Scarecrow can be enlarged for a class bulletin board or used in the size shown.

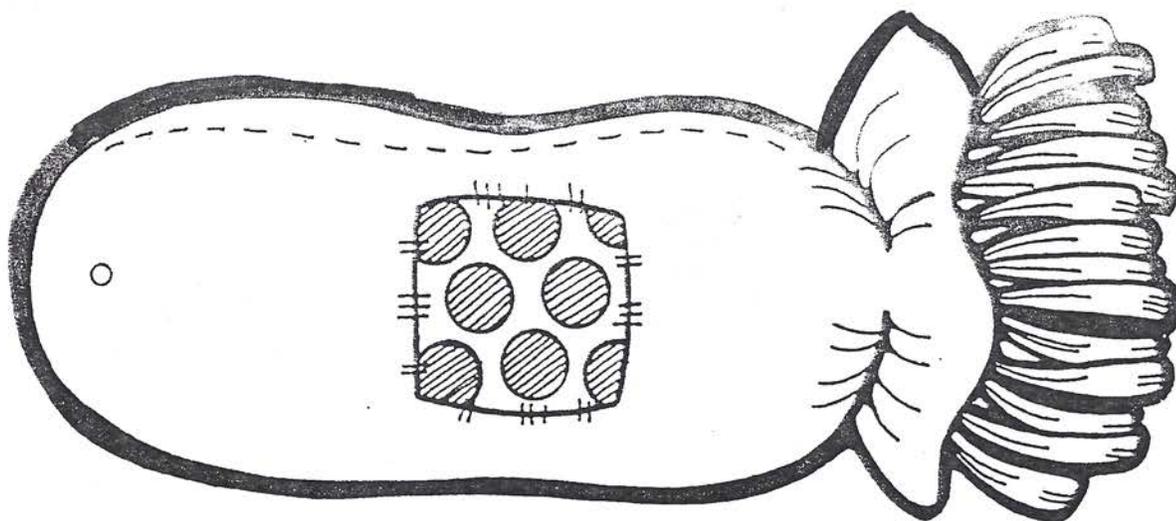

Cut Mr. Scarecrow from colored construction paper. Color with crayons or colored markers. Assemble with brass fasteners.

Cut out the crow and place him on the scarecrow's shoulder.

This type of craft can also be used to motivate children to complete assignments or change behavior.

Award one piece of the scarecrow each day that the child finishes his or her work or improves behavior. The student will look forward to completing the craft and taking it home to show parents.
