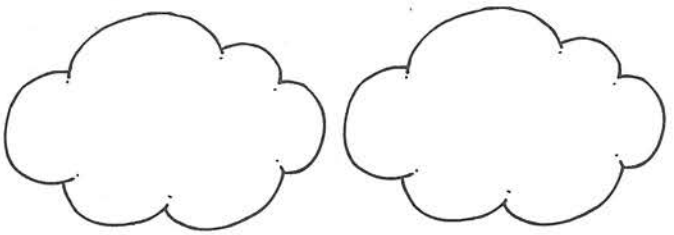
Directions Have children: **1** write how many teddy bears there are in each group, circle the two groups, and then write how many bears there are in all; **2** count the plums in each group and write numbers to show joining the groups; **3** write the numbers that show joining the groups and then write the sum.

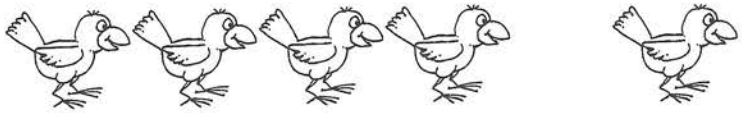
Name _____

4



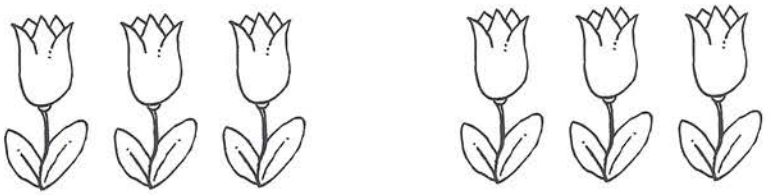
_____ and _____ is _____.

5



_____ + _____ = _____

6



_____ + _____ = _____

Directions Have children: 4 draw pictures and complete the number sentence to solve this problem: *There are 6 raindrops in one cloud and 2 raindrops in another cloud. How many raindrops are there altogether?* 5 trace the numbers to tell how many birds there are in each group, trace the plus and equal sign, and write the sum; 6 write an addition sentence to tell about the picture.
