

START

# Word Trail

STOP

**Directions for children:** Take turns with a partner: toss a coin to move forward on the trail—heads, one space; tails, two spaces. As you land on a space, read the word or say a word that begins with the letter in that space. Play until everyone reaches STOP.

**Note:** Provide words or letters for each space on the game board or have children write them as they are able. Provide and model directions for the children.
