

Row, Row, Row, Your Boat

Facts of 12

Learn, learn learn your facts
So that you can grow.
As we study through the day,
The arithmetic I'll show.

— $8+4$, $4+8$ always equals 12.
 $7+5$, $5+7$ will give you 12 as well.

$9+3$ is always 12, as is $3+9$.
But $6+6$ it has no match,
So answering 12 is fine.
