

Bread Dough

Recipe:

- 3 slices white bread
- 3 tablespoons white glue
- Food coloring, tempera or poster paint

Directions:

1. Remove crusts from bread.
2. Tear bread into small pieces. Place in bowl or plastic bag.
3. Add glue and mix until mixture no longer sticks to fingers and has a smooth texture.
4. Coloring can be added at any time.
5. Dough may be mixed ahead of time and stored in plastic bag.

(For minimum shrinkage, and to prevent larger items from possible cracking, coat them with a solution of equal parts of water and white glue. Allow to dry, then repeat two more times. This will produce somewhat of a porcelain-like finish, but not as fragile as porcelain since the glue gives some elasticity to finished projects.)
