

CONSTRUCTION

Bird In A Cage

Task 114

Materials: paper pie plates (2), ten straws, white glue, thread, scissors, crayons.

DIRECTIONS

1. Draw a bird on tagboard - funny or real - but not too large. Color, cut out and put a small hole in back to hold the thread.
2. Put small holes (10), evenly spaced, around the paper pie plates. Also make one in the center of the top to hang the bird and cage.
3. Insert straws in holes, assemble, glue and allow to dry.
