Kites

Task 115

Material: newspaper, thin sticks or $\frac{1}{4}$ inch wooden dowels, string, white glue, file or coping saw.

DIRECTIONS

1. Cut stick A-B 36 inches long, C-D 35 inches long. Glue and tightly tie sticks together.
2. Notch ends of each stick and groove $\frac{1}{2}$ inch around each end.
3. Outline the frame with string and cut paper to fit. Allow a 1 inch margin all around. Fold edges over string and glue.
4. Tie bridle strings from A to B and from C to D. Tie flying string to bridle.
