

MICHIGAN
STATE BOARD OF EDUCATION

MODEL ANTI-BULLYING POLICY

The (fill in district name) board of education prohibits acts of harassment or bullying. The board of education has determined that a safe and civil environment in school is necessary for students to learn and achieve high academic standards. Harassment or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe environment. Demonstration of appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment or bullying is expected of administrators, faculty, staff, and volunteers to provide positive examples for student behavior.

"Harassment or bullying" is any gesture or written, verbal, graphic, or physical act (including electronically transmitted acts – i.e. internet, cell phone, personal digital assistant (pda), or wireless hand held device) that is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression; or a mental, physical, or sensory disability or impairment; or by any other distinguishing characteristic. Such behavior is considered harassment or bullying whether it takes place on or off school property, at any school-sponsored function, or in a school vehicle.

"Harassment" is conduct that meets all of the following criteria:

- is directed at one or more pupils;
- substantially interferes with educational opportunities, benefits, or programs of one or more pupils;
- adversely affects the ability of a pupil to participate in or benefit from the school district's educational programs or activities because the conduct, as reasonably perceived by the pupil, is so severe, pervasive, and objectively offensive as to have this effect; and,
- is based on a pupil's actual or perceived distinguishing characteristic (see above), or is based on an association with another person who has or is perceived to have any of these characteristics.

"Bullying" is conduct that meets all of the following criteria:

- is directed at one or more pupils;
- substantially interferes with educational opportunities, benefits, or programs of one or more pupils;
- adversely affects the ability of a pupil to participate in or benefit from the school district's educational programs or activities by placing the pupil in reasonable fear of physical harm or by causing emotional distress; and,
- is based on a pupil's actual or perceived distinguishing characteristic (see above), or is based on an association with another person who has or is perceived to have any of these characteristics.

The (fill in district name) board of education expects students to conduct themselves in a manner in keeping with their levels of development, maturity, and demonstrated capabilities with a proper regard for the rights and welfare of other students, school staff, volunteers, and contractors.

The (fill in district name) board of education believes that standards for student behavior must be set cooperatively through interaction among the students, parents and guardians, staff, and community members of the school district, producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for district and community property on the part of students, staff, and community members.

The (fill in district name) board of education believes that the best discipline is self-imposed, and that it is the responsibility of staff to use disciplinary situations as opportunities for helping students learn to assume responsibility and the consequences of their behavior. Staff members who interact with students shall apply best practices designed to *prevent* discipline problems and encourage students' abilities to develop self-discipline.

Since bystander support of harassment or bullying can support these behaviors, the district prohibits both active and passive support for acts of harassment or bullying. The staff should encourage students to support students who walk away from these acts when they see them, constructively attempt to stop them, or report them to the designated authority.

The (fill in district name) board of education requires its school administrators to develop and implement procedures that ensure *both* the appropriate consequences *and* remedial responses to a student or staff member who commits one or more acts of harassment or bullying. The following factors, at a minimum, shall be given full consideration by school administrators in the development of the procedures for determining appropriate consequences and remedial measures for each act of harassment or bullying.

Consequences for a student who commits an act of harassment or bullying shall be unique to the individual incident and will vary in method and severity according to the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors and performance, and must be consistent with the board of education's approved code of student conduct. Remedial measures shall be designed to: *correct the problem behavior; prevent another occurrence* of the behavior; and *protect the victim* of the act.
