

# Targeting Multiple Choice Strategies

## READ ALL THE CHOICES:

- Before you mark an answer, **READ ALL THE CHOICES**.
- Think carefully and select the *best* choice.

## PROCESS OF ELIMINATION/THROW-OUT:

- Read all the choices.
- Decide which choices could not be the answer.
- Think – Does your final choice make sense?

## LOOK BACK:

- You may need to reread part of the story to help you answer a question.
- Find **KEY WORDS/PHRASES** from the question or answers.
- Skim the story for your key words/phrases to find the information or check the answer.

## REREAD THE QUESTION:

- Sometimes none of the answers make sense. This is a clue that you may not have read the question correctly.
- Read the question again. You may have skipped a word.

## 50/50 – THIS IS YOUR LAST RESORT:

- You have tried all the other strategies for answering questions, and you don't know the answer.
- You will pick an answer by using process of elimination and making a smart guess.
