

Name _____

AN ALPHABET BOOK, page 1 of 5

We have been learning about the alphabet all year long—now it's time to make an alphabet book of your very own. Think about the alphabet books that we have read this year. Each one was different but each one talked about the letters of the alphabet. On the little pages below, decide what you can draw that will represent each letter. Try to sound out the word for each letter thing that you draw and put that in the little box, too. You're going to be an illustrator! Cut the pages apart on the black lines and staple them together in the correct order. Check your work by singing the alphabet song to make sure the pages are where they should be.
