

A Canned-Food Drive

Students at Parkview School collected cans of food to give to a local soup kitchen. Look at the graph and key to find out how many of each type of canned food they collected.

Canned Food Collected

Type of Canned Food	Number of Cans
Beans	
Fruit	
Sauce	
Soup	
Vegetables	

- The symbol  stands for how many cans of food? _____
- True or false: Ten cans of beans were collected. _____
- How many cans of vegetables were collected? _____
- Fifteen cans of which type of food were collected? _____
- How many more cans of soup were collected than cans of sauce? _____

Bonus: All together, how many cans of food did students at Parkview School collect?
