

EGG CARTON POODLE

Material needed:

4 Cardboard egg carton cups
9 Chenille Bumps, 3" long
12" Ribbon, 3/8" wide
2 Movable eyes, 7mm
1 Chenille stem
Elmers Glue or Tacky White Glue

For the head, cut 2 cups as shown in Fig. 1 and glue open ends together as shown in Fig. 2.

For the body, cut 3rd cup as shown in Fig. 3. Note this cup is upside down. Paint body and head or leave as is.

For the neck, cut a 4" piece of chenille stem. Curl around a pencil, making a corkscrew. Glue this curl to the body and the head as shown in Fig. 4.

Cut 2 ears from the corners of a cup or make ears from a piece of oaktag or cardboard. Glue to either side of head.

Glue a double bump of chenille, curled, to top of head. Glue a curled bump to each ear, and one to the bottom of each leg. Cut half of fur from a bump and curl end of it and secure it as a tail. Take a half bump, curl it and glue to front of face for nose.
