

CONSTRUCTION

Flower Cage

Task 128

Material: three coat hangers, wire, wire cutters, tuna fish can, ribbon, small plant, soil.

DIRECTIONS

1. Use the wire cutters to remove the hook parts from two of the coat hangers.
2. Bend wires into an oval shape.
3. Wind wire at the top and bottom to hold your cage together.
4. Use a ribbon bow to hide the wire at the top of the cage.
5. Put soil and a small ivy plant in the tuna can and place in the bottom of the cage.
