

High-Frequency Word Cards for Kindergarten

High-Frequency Word Cards are an important part of *Scott Foresman Reading Street* phonics and vocabulary instruction. These cards are geared to interactive learning and group involvement. Children use them to learn to recognize and use high-frequency/vocabulary words.

Included are all of the high-frequency words for Kindergarten. The cards are in alphabetical order in the box. The words are listed below lesson-by-lesson. In Kindergarten, instruction for each set of high-frequency words spans two weeks. No new high-frequency words are introduced in Unit 6.
