

# PAPER CONSTRUCTION

## Pinwheel

## Task 33

Material: stiff paper, masking or scotch tape, ruler, common straight pin,  $\frac{1}{2}$  inch wide tag board circle, unsharpened pencil.

### DIRECTIONS

1. Measure and cut out one seven inch square. Use stiff paper. Cut out.
2. Draw exact lines across square, corner to corner. Add the five black dots (shown above).
3. Bend four outer dots to meet center dot, tape together.
4. Fit circle on pin, push through black holes and push into rubber eraser.
