

Today we read the Ukrainian folktale, "The Mitten." It is about a little boy named Ivan, who lost one of his mittens in the forest when he went out to gather wood for his grandparents.

See if your child can name the nine animals that crawled into the mitten on that cold winter day.

What happened when the tiny, little cricket crawled into the mitten?

Your child would like to tell you this story using this mitten and pictures of characters in the story.

You need: crayons
scissors

Color the pictures below. Cut out the pictures on the dotted lines.
Now listen as your teacher tells the story of Ivan and his yellow mitten.
Put the pictures into the mitten in the order in which you hear them in the story.
