

WALL KEY HOLDER

Project:

Wall Key Holder (Courtesy of Donna Ryan,
Cub Pack 129, Hamilton Square, N.J.)

Approximate Assembly Time:

2 meetings*

Materials Required:

Stain, shellac or paint
Large paint stirring sticks (obtain from
local hardware or paint store)
Cup hooks (4 or 5 per stirring stick)

Instructions:

1. Paint, stain or shellac stirring sticks at first meeting, then set aside to dry completely (*if this is done ahead of time by the group leader, the project can then be done in 1 meeting)
2. Paint or attach the letters K-E-Y-S to stirring sticks, equally spaced
3. Attach hooks to stirring sticks in desired order
4. Make small hole at top of stirring sticks for hanging

This can also be made on a Paddle Ball paddle, to give it a different shape.
